Technical Literature - The
goal of the Space Studies
Colloquium is to bring
guest researchers from the
astronautical and space
science communities in
both industry and academia
to support space-related
scholarship in the
Department of Space
Studies and at UND and
other North Dakota
institutions of higher
education. Department of
Space Studies - Efficient
vertical mobility is a critical
component of tall building
development and
construction. This paper
investigates recent advances
in elevator technology and
examines their impact on
tall building development.
It maps out, organizes, and
collates complex and
scattered information on
multiple aspects of elevator
design, and presents them
in an accessible and
non-technical discourse.
